How to Pray So It Works

By: *The Church Guys*

How many times daily would you guess all the starving children of the world are prayed for? *Millions, maybe billions!?* ...and prayers for curing all diseases? ...for fixing miserable lives? ...for ending war? ...for ending rape & abuse? ... for restoring amputees? *Countless prayers.* No answers.

There's no doubt that even selfless prayers **don't come to pass**. It's obvious that God does not give us what we ask for. Some say he answers in his own way, but if we're honest, that is just wishful thinking. We only see "common need" prayers get answered and *those* were simply going to happen naturally anyway.

So how do we make prayers work?

It's simple! **Pray FOR Gods plan to come to pass.** Why would he change his plan for us?! Praying for God's plan, *though tough to accept*, is the **ONLY truly selfless** prayer! Like this: "God, though I don't understand your reasons, I pray for the starvation you permit. I pray for the disease to continue, for the war, murder and abuse to go on as you see fit. Amen." Of course, you can ask for his pleasant plans to continue too, but the key is to pray for the parts of the plan you know and **not for selfish human change**. These prayers will *always* work! Sorry if this seems harsh, but the reality is that we humans are on our own if we want change. Have some common sense; ask friends & family for help or do it yourself, don't ask God for a quick fix.
