

The Origins of Christianity

The chart below provides an insight into what has embarrassed biblical scholars for centuries: Why a man capable of walking on water, healing lepers and raising the dead was never mentioned other than in the Bible and derived writings. History documents a King Herod, but he died two years before Jesus was said to be born. Some scholars of comparative mythologies say nothing Jesus said or did was original: biblical accounts are merely plagiarisms of earlier mythologies.

The Origins of Christianity (Cont'd)

Due to the many similarities this table is not complete. For example over 50 recorded messiahs centuries before Jesus were said to be 1) of virgin birth, 2) to save mankind, 3) later crucified, and 4) resurrected.
